

Default Question Block

Hello! Thank you for taking my survey. I am running a small pilot study to gather information for a larger survey I will be administering at some point in the future.

In this survey, you are asked to imagine that you work for the government. Your job reviews applications for American citizens seeking welfare assistance, and it is up to you to either grant or deny them welfare assistance.

Five pairs of applicants seeking welfare will be presented to you. Please read the application information for each candidate carefully before answering the questions.

Scenario 1

Please read the descriptions of the two potential welfare applicants carefully. Then, please indicate which of the two applicants you would **personally** prefer to see admitted to a welfare program.

Scenario 1 out of 5

	Applicant 1	Applicant 2
Gender	Male	Male
Education Level	High school graduate	Graduate or professional degree
Race	White	Hispanic/Latino/Spanish Origin
Household Information	Married - no children	Married - no children
Age	18-19	20-29
Employment Status	Employed	Unemployed - seeking employment

☐ Applicant 2

☐ Applicant 1

On a scale of 1 to 7, where 1 indicates that the government should absolutely **not** admit the applicant and 7 indicates that the government should definitely admit the applicant, how would you rate Applicant 1? Using the same scale, how would you rate Applicant 2?

	1 - Absolutely Not Admit	2	3	4	5	6	7 - Definitely Admit
